Wally and Jeff,

Attached are the documents we received from via this communication from the tribe. Many of these were posted on Facebook before this (July 31 or August 1), indicating that someone from the USFS Wrangell office had made them available on Facebook in some way.

We met with the tribe on August 3.

Good afternoon Anna,

Please see the attachments regarding the planned Wrangell Junkyard Repository Site. WCA has forwarded this on to the Lt. Governor's Office after I had a moment to speak to him about this at last

week's GTAC.

Thanks,

Will

Subject: Wrangell Lead Depository Information

Hi Will,

Attached is the information on the Wrangell Junkyard Depository. I sent an email to Lt. Gov Mallott today requesting assistance to halt the project, open transparent communication with all stakeholders, and initiate collaboration on choosing an alternative site.

Thank you so very much for helping us with this issue. We truly appreciate your assistance!

Esther
